

Annual Update

by Patches

Happy Holidays everyone! As the 21st century begins, we would like to review the year's highlights to keep our family and friends updated.

To begin, Rosita has grown into quite the active young lady. Over the summer she enjoyed swimming in her small pool, bike riding with both daddy and mommy, a favorite... to "ride the wagon" which is riding a red Radio Flyer Wagon that the Easter Bunny gave her, and to "ride the swing", a swing, that she sometimes with the the neighborhood kids quarreled over.

Rosita also went to the zoo, without us I might add, and saw lots of animals. There were lots of kids and distractions that kept her from feeding some of the animals so, we hear, next year will be another trip. Speaking of trip, she sure enjoyed Adventure Land Amusement Park.

Her favorite ride...

Bird's Eye View

Inside Scoop

by Ibon

Oh tis the season to be... [cold] For the first time, since I was brought here, I am freezing my tail feathers off. It is sooo cold! Sure hope Santa brings us something warm and of course our favorite seeds.

Anyway... Lorna has returned to her job. She is working part time at Burger King.

Michael? Well, he basically continues his school. He claims he has only a few classes left -- yah right! We all have heard that before.

Let's see, summer was cool. We birds spent some time out doors while the three had a picnic or two. Next summer

hear they are going camping. That sounds fun, do hope we get go.

Other than that, not much going on.

Everyone is in good health and looks forward to Christmas and the New Year. Hope to see some of you.

Well, that's the year from our bird's eye view. We do hope that everyone is doing fine. We all wish you and your family a safe and happy holiday. Please do keep in touch!

Merry Christmas!

*Michael, Lorna, Rosita
Ibon and Patches*

Did we mention the cold...? ...Brrrrr.
